

## **Cabal Online Free Gameplay**

### **New features launched**

Games-Masters.com is delighted to launch 10 days free game play for all current and past players. This will allow everyone who has ever played to see the tremendous new features that have been incorporated into the smash hit Cabal Online.

The offer is timed to coincide with the launch of the new and much improved payment system through WorldPay, which allows players to make either single or recurring payments through a tremendous range of credit or debit cards. PayPal direct payments are also allowed which eliminates the middleman, txtNation.

As the payment system has to close temporarily to incorporate the better services, Games-Masters.com is rewarding player's patience with a special promotional price of €9.99 on all credit or debit transactions via WorldPay or PayPal for 2 weeks after the free game play promotion. Recurring players will also be able to lock into this deal too.

Existing SMS / Premium Rate Phone / Bank transfer systems provided through txtNation will remain as they are.

On top of all this, Games-Masters.com has ended the "Invite a friend" offer and will be replacing it with a long-term system with more benefits. Now, if players invite a friend, they will receive double the existing free game play with 2 weeks being added to their account.

Games-Masters.com has teamed up with PowerColor, a leading supplier of

high performance graphics cards, to bring you their latest competition. Running until 31 January, 2007, the player from each server who collects the most PowerColor cards in the time allowed, will win the First Prize. These items will also sell to the NPC's for 5,000 Alz, so everyone is a winner –

**First Prize – 1 x PowerColor X1950 PRO**

**Second Prize – Blue Astral Bike**

**Third Prize – Astral Board**

### **Player feedback**

*“Cabal is a very enjoyable game with great sound, graphics, game play and replay value. If you see this gem of a game in a store or on line, snatch it up as fast as you can. For the small amount of money that it will cost compared to the great deal of enjoyment it will bring, Cabal is totally worth it.”*

*“Cabal is a very fun game to play for almost everyone. In all seriousness, I can say that not many other games allow you to have so much fun in the middle of a massacre.”*
